CAMbrella - What is it?

CAMbrella is a FP7-funded project, hence a **research-oriented** project

CAMbrella - What is it?

CAMbrella is a FP7-funded project, hence a **research-oriented** project

However, it is **not** a collaborative research project **but** a so-called **coordination** action

What means CAMbrella?

What means CAMbrella?

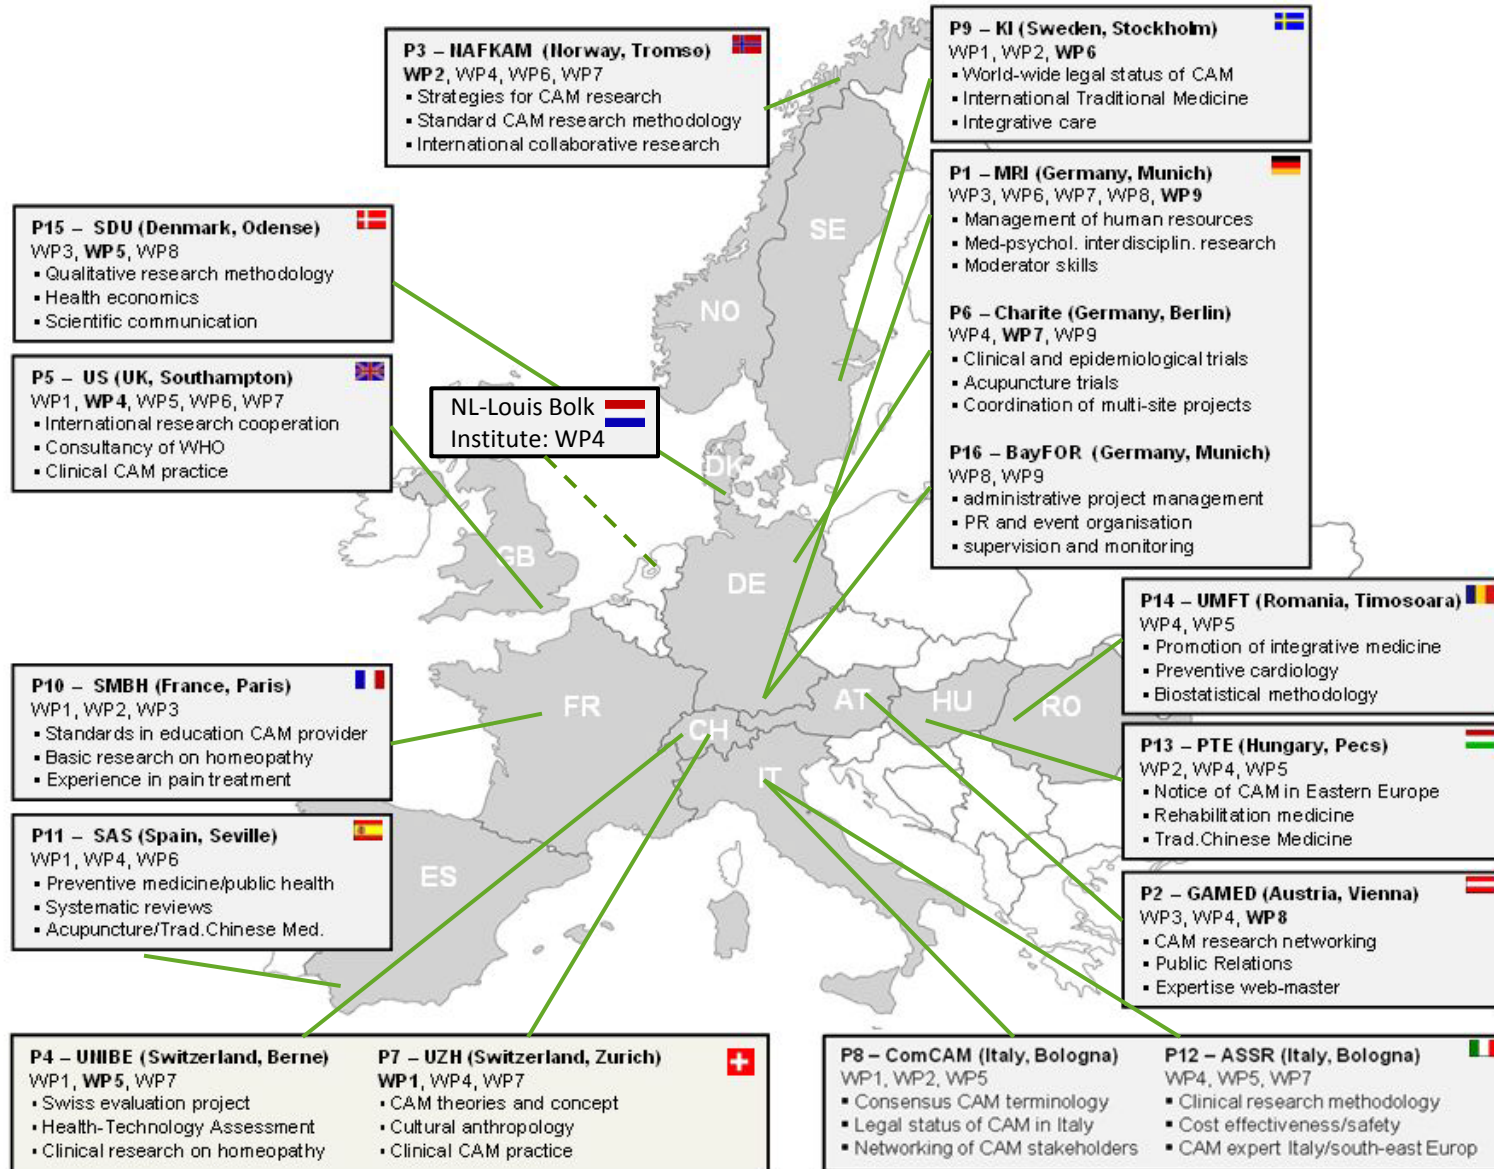

- 3. **Optimising the delivery of healthcare to European citizens**
- 3.1 Translating Clinical Research into practice
- 3.1-3 Complementary and alternative medicine

In order to create the knowledge base concerning the **demands for Complementary and Alternative Medicine (CAM)** and the **prevalence of its use** in Europe, consensus on the **terminology of CAM** and the definition of respective CAM methods needs to be established. The current state with respect to the **provider's perspective** as well as needs and demands of the **citizens** should be explored; the different **legal status** of CAM in EU Member States needs to be taken into account. A roadmap for **future European research** in this area should be developed.

CAMbrella – in a nutshell

Title	CAMbrella – A pan-European research network for Complementary and Alternative Medicine (CAM)
Start of the project	Jan 1, 2010
Duration	3 years
Consortium	16 participants from 12 European countries plus one adjunct partner from Netherlands
Coordinator	Klinikum rechts der Isar, Techn. Univ., Munich Competence Centre for Complementary Medicine and Naturopathy (Head: D Melchart); contact: W Weidenhammer
Funding	max 1.5 m. € (FP7/2007-2013, GA No. 241951) Funding scheme: Coordination action
Aims	to review the status quo of CAM in the EU and to provide a proposal (=roadmap) for CAM research
Impact	Research roadmap and network to enable sustainable and prioritised CAM research in the EU
